

**Neuroendocrine  
Cancer UK**

(Formerly NET Patient Foundation)

The background features a stylized mountain range. The mountains in the distance are rendered in shades of blue and grey, while the foreground mountain is a solid white silhouette. A small red butterfly is perched on the left side of the white mountain peak. The text 'NCUK VIRTUAL SUMMIT' is written in white, with 'SUMMIT' in a larger font, and 'NOVEMBER 2020' below it.

# NCUK VIRTUAL SUMMIT

NOVEMBER 2020

A free annual event for patients and supporters to learn about all aspects of Neuroendocrine Cancer.

A faint, dark grey reflection of the white mountain peak and the red butterfly is visible at the bottom of the page, mirroring the design above.

Welcome to the

# NCUK VIRTUAL SUMMIT

In the lead up to this year's "World NET Cancer Day", the team here at NCUK are delighted to present you with an exciting opportunity to take part in our first annual NCUK Summit.

Drop in to our virtual sessions to hear UK clinical experts, specialists and fellow members of the Neuroendocrine Cancer community share their knowledge and experience and all from the comfort of your own home.

This innovative programme will culminate in your very own Neuroendocrine Cancer Question Time (NCQT) - a live event, where you will be able to take part in a dynamic Q&A session - submitting your questions, in advance or on the day, to our expert panel.

## WHEN?

Our virtual sessions will be available to watch on the 7th and 8th November 2020.

The NCQT event will be available to watch live on Tuesday 10th November 2020 from 6:00pm - 7:00pm.

Please note that if you are unable to join then the full programme and Q&A recording will be made available after the event on our [website](#).

# AGENDA

## Saturday 7th & Sunday 8th November 2020:

The talks will cover many aspects of Neuroendocrine Cancer, from diagnosis through treatment and beyond including:

- Treatments Across the Neuroendocrine Cancer Spectrum – Advances and Options in Radioligand Therapy
- Genomic Advances in Neuroendocrine Cancer Research
- The Latest Innovations in Diagnostic Tools
- Hormones, Syndromes and You
- Updates on Neuroendocrine Cancer Terminology & Classification – what does this mean for my care?
- Treatments Across the Neuroendocrine Cancer Spectrum - Advances in Chemotherapy & Targeted Therapies
- Understanding Research - reporting back from Bootcamp
- Living with the Uncertainty of It All
- Spotlight on Gastric Neuroendocrine Tumours/Cancers
- Research and Clinical Trials in the UK & Across the Global Community
- Spotlight on Pancreatic Neuroendocrine Cancers
- Becoming Your Own Expert
- Pain Management
- NET Care in a District General Hospital
- Options, Influences and Progress in Surgical Options for Pancreatic Neuroendocrine Cancers
- Myth Busting and Research Needs in Nutritional Care
- Spotlight on Lung Neuroendocrine Cancers

And many more.

## Tuesday 10th November 2020 - World NET Cancer Day:

LIVE event - 6-7pm (UK) — Neuroendocrine Cancer Question Time (NCQT) : Ask the experts.

# Neuroendocrine Cancer UK

(Formerly NET Patient Foundation)

**“World NET Cancer Day” is an annual global event held on the 10th of November, created to increase awareness of Neuroendocrine Cancers and to provide a voice to the Neuroendocrine Cancer community for improved diagnostics, treatments, information, care and research.**
